

L
40x60
mm

The image shows three bamboo specimens of varying shapes and sizes, all resting on a single, long, thin bamboo base. The specimen on the left is a rectangular block with a black rectangular label overlaid on its front face. The label contains the text 'L 40x60 mm'. The specimen in the middle is a tall, rectangular block with a slightly tapered top edge. The specimen on the right is a shorter, wider block with a trapezoidal shape, being wider at the top than at the bottom. All specimens exhibit a light brown, fibrous texture characteristic of bamboo.
